# Super Structures & Décors

2025-2026

# Summary

## Presentation

- Mineral Fibre p.4
- Environmental Impact p.6

## Hanging decorations

- Summer decorations (suspended) p.10
- Summer decorations for poles p.24
- Ribbon canopies p.26
- Vegetation decorations p.28

## Standing decorations

- Plants p.32
- Giant Flower Bouquet p.34
- Giant 3D Insects p.38
- 3D Animals p.42
- Ecological 3D Trash Fish p.46
- 3D Photo Corners p.48
- Giant 3D Fruits p.50
- Wine Worlds p.52
- Shades p.54
- 3D Sports Decorations p.56

## Giant 3D letters

p.58

# Mineral Fibre

A new concept in decorations  
New pattern technology

**Our partner specialises in the manufacture of mineral fibre structures in a variety of shapes combining design and aesthetics to meet a wide range of requirements in a variety of environments.**

GUARANTEED  
**10**  
years

We guarantee a minimum 10-year life for our fibreglass structures in outdoor use.

The structures are light and very strong.

In the event of an impact, they do not break, they do not deform, unlike aluminium, and they are able to bear more than 20 times their own weight.

They will not be blown over due to their openwork construction. They can withstand winds of over 75 mph!

## FIRE RESISTANCE

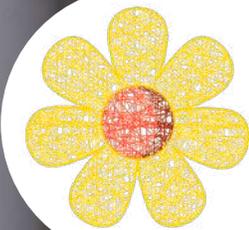

All our decorations can be classified M1 by construction or by treatment. This guarantees absolute safety from fire for ERP sites or sites with a high density of people.

### The 10 complementary advantages:

- Corrosion resistance
- Chemical resistance
- Electrical and thermal insulation
- Thermal shock resistance
- Non-sparking and anti-magnetic (ADF/ATX)
- Electromagnetic transparency
- Easy cleaning, water, paint and varnish.
- Unlimited colour palette.
- Complies with road impact regulations.
- Easy to repair (vandalism and graffiti <1%).

## OPENWORK SURFACE

Light passes through the openwork surfaces, increasing the vision of light sources, meaning less lighting, less energy consumption and less environmental impact.

## A SUPER STRONG STRUCTURE

The load-bearing capacity of our structures is remarkable. This allows for direct interactivity with visitors, as children and adults can climb on them...

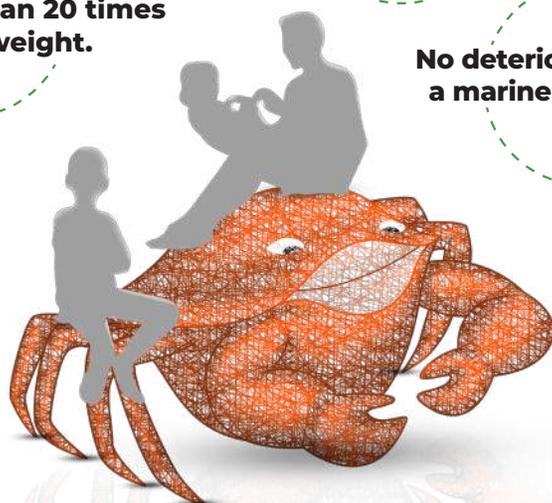

... Which they love to do!

**Thermal resistance ranges from -50°C (without fear of freezing) to 50°C+**

**Our structures are able to support more than 20 times their own weight.**

**Guaranteed to last for 10 years!**

**No deterioration even in a marine environment**

# Environmental impact

It is important to offset environmental impact, but above all it is essential to plan.

**Optimised production costs, optimised installation costs, optimised storage constraints, all mean more positive impacts on our daily environment.**

## In our industrial activity, the sustainable development approach translates into:

- Recycling of waste (or industrial by-products) and the use of plant resources
- Improving process efficiency (energy efficiency and energy saving)
- The promotion of healthier practices and products for humans and the environment
- Marketing of products through greener travel (hybrid or electric vehicles)
- A low carbon company, with goods being transported over a shorter distance
- Development of local trade and crafts
- Products manufactured at our premises in Pertuis (84)

## SUSTAINABLE DEVELOPMENT AND ENVIRONMENTAL QUALITY

Our partner focuses entirely on manual production, with or without integrated lighting. The use of mineral fibre reflects a strong commitment to reducing energy consumption during the manufacturing process.

These decorations are crafted from mineral fibre using low-impact methods that do not rely on energy-intensive machinery such as 3D printers, extruders, or presses to maintain their form.

Energy efficiency within the workshop and across all production processes is a key management priority. As a result, we are able to offer genuinely low-carbon decorative solutions.

**All illuminations are CE and RoHS compliant and use LED technology**

## MINERAL FIBRE WEAVING TECHNOLOGY

### Positive points:

- Environmentally friendly
- Fully recyclable
- Rot-proof

WE CAN SAY THAT ALL OUR DESIGNS ARE

**99%**  
RECYCLABLE

**100%**  
UNIQUE

Our teams have been trained in our **UNIQUE** know-how and we work hard to develop the **skills** of our employees.

**100%**  
HAND CRAFTED

At ADS DESIGN **People are at the heart of our development !**

**100%**  
QUALITY

**Hard work, due care, expertise** and **high standards** are values that we pass on to all our new recruits.

### WHAT WE DO:

The structures we offer can be easily adapted to many areas:

01. Summer decorations
02. Christmas lights
03. Giant 3D letters
04. Decorated roundabouts
05. Green spaces

### WHAT WE WANT:

To bring beauty and life to public spaces, with respect for ecological and economic issues.

**100%**  
recyclable

**Circular**  
economy

**Locally-sourced**  
raw materials

**100% RECYCLABLE WITH 0% WASTE FOR A 100% CIRCULAR ECONOMY**

# Hanging Decorations

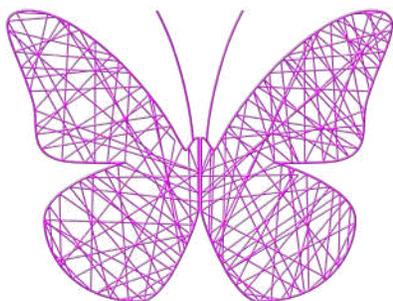

# Hanging Decorations

A key part of our summer decorations, these colourful hanging decorations will enhance your streets skyline! Your city centres will be transformed into a must-see destination for smiles and cheer!

*(We have selected a basic panel of five colours: yellow, orange, green, blue, and pink. But we also have the option of producing other colours from the RAL colour chart according to your choice.)*

• Summer Decor for posts

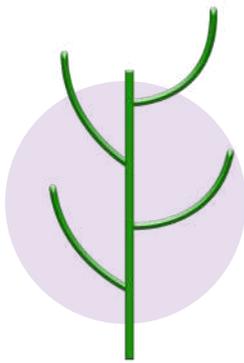

# Structures mounted On Posts

Are your streets too wide to hang a suspension cable?  
Don't have a tree to decorate on your avenues?

*We have the solution!*  
Our designs can now also be mounted on brackets  
To attach to lighting poles or other posts.

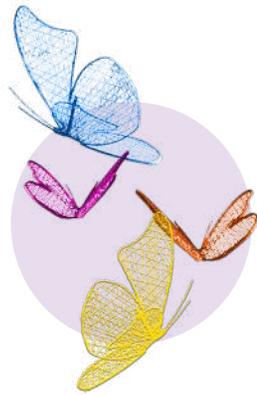

**Simple and effective for guaranteed results:**

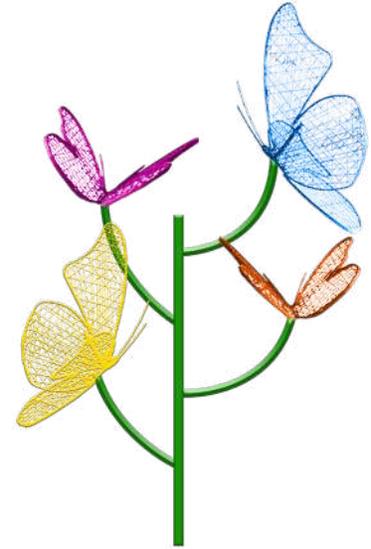

**Recycled aluminium stem**  
(Number of arms and colours can be changed)

+

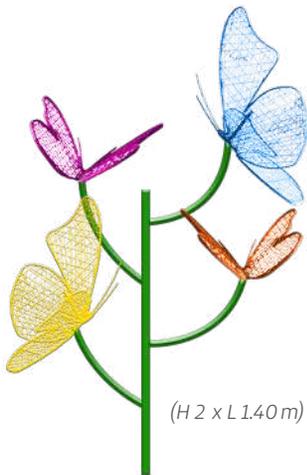

**Choose your designs**  
(Combine with our different models, mix and match colours)

→

**Result !**

**Adaptable with all of our designs:**

(H 2 x L 1.40 m)

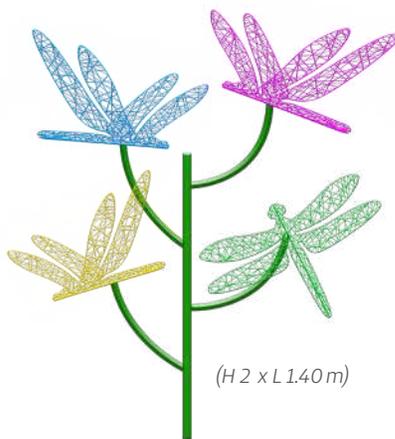

**Butterflies version (3D)**

Colours available

Reference : 900 930

(The number of branches and patterns can be changed)

(H 2 x L 1.40 m)

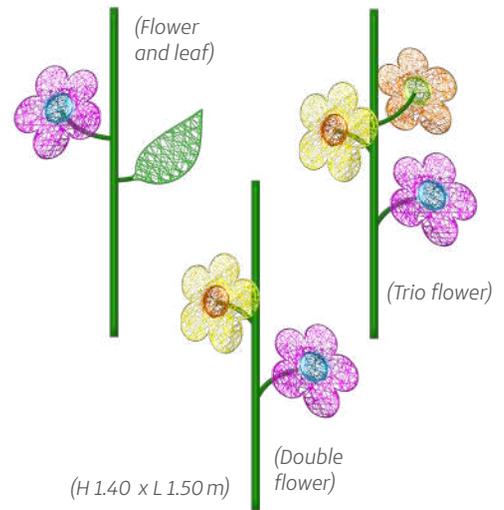

**Dragonflies version (3D)**

Colours available

Reference : 900 931

(The number of branches and patterns can be changed)

(H 1.40 x L 1.50 m)

**Daisies version (3D)**

Colours available

Reference : 900 932

Double Daisies : 900 933

Trio Daisies : 900 934

(The number of branches and patterns can be changed)

• Ribbon ceilings

# Ribbons, colour, And a light breeze...

Movement, lightness, and colour come together to create a striking visual experience.

*Shade your streets with our ribbon ceiling solutions and personalise the atmosphere to reflect the colours of your city or your events!*

**Easy to install for a sublime and poetic result**

Contact us for a colourful simulation of your project!

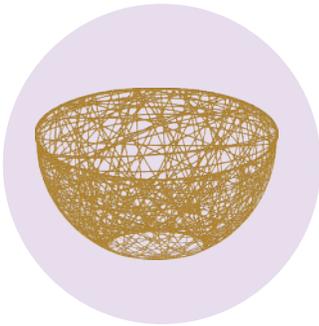

• Plant decorations

# Modular structures Dressed with flowers

A poetic and original concept that will captivate you  
With its modularity and multiple possibilities.  
The variations in shapes and colours are endless.

**A simple principle:**

**A 2D or 3D structure**  
(E.g., arch, sphere, column, etc.)

**A plant**  
(Plants, leaves, flowers...  
Or a whole group of plants)

**A multitude of variations :**

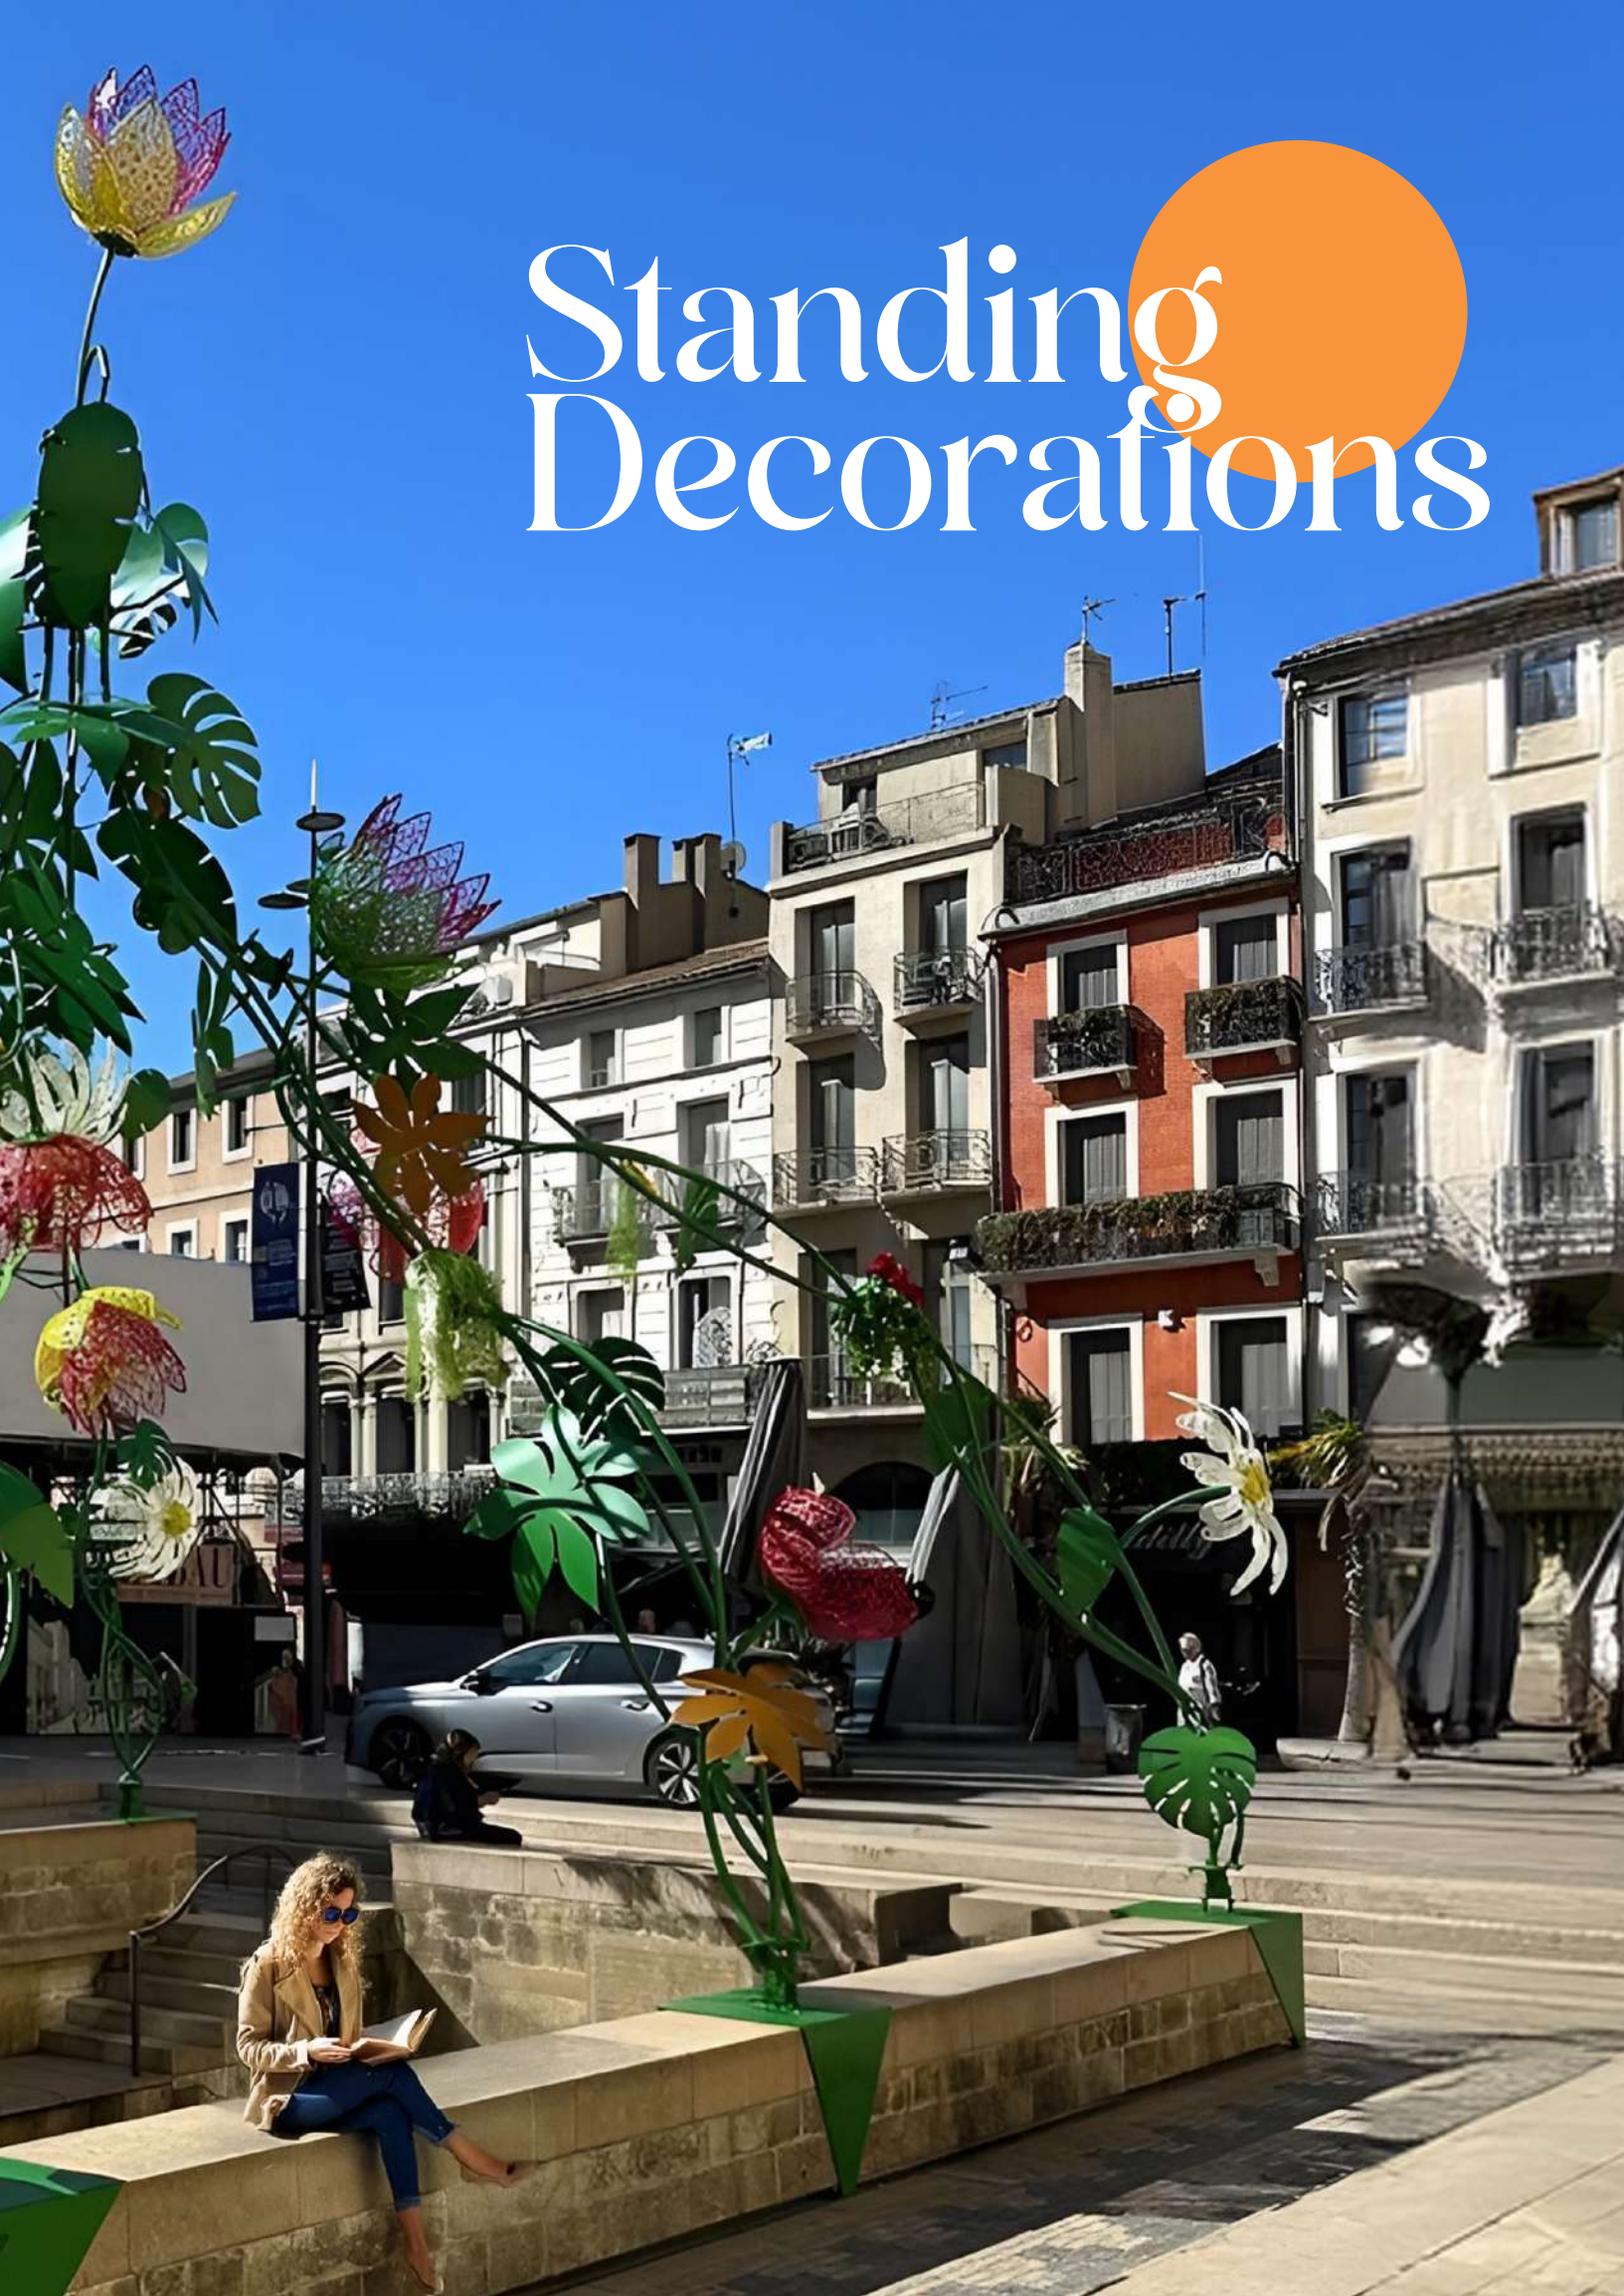

Let your imagination run wild,  
Let us create it for you!

# Standing Decorations

# Standing Decorations

“We do not inherit  
The earth from our ancestors,  
We borrow it from our children.”

Antoine de Saint-Exupery

• Photo Corners 3D

# YOUR TAILOR MADE PHOTO CORNER

Give in to the «Photo Corner» trend!  
We offer custom designs for your festive events  
(Valentine's Day, May Day, Christmas, etc.).  
Whatever your needs, we'll create the Photo Corner that will make you smile !

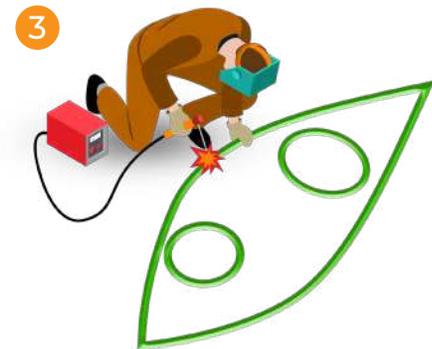

Your Photo corner in 4 steps:

1 The design studio  
Sketches a draft of the project.

2 The sketch is then simulated in  
3D computer graphics.

3 The structure is manufactured, welded,  
woven, painted and assembled in our  
workshop.

4 And there you have it!  
Done, delivered!

... Some designs :

## • Giant Fruits 3D

### Apple / 200cm (3D)

Colours available

We make it  
To order!

• Wine worlds

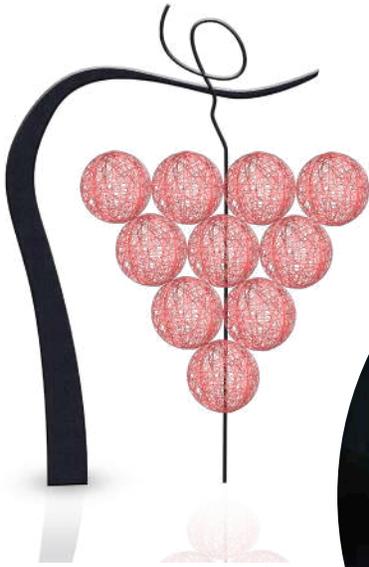

# Vines & Grapes

(Vine stock, bunch of grapes and spirits)

Thanks to our expertise, we are able to adapt a wide range of creations by combining innovative manufacturing techniques (polished welded steel, cut and powder-coated aluminium, fibre weaving, etc.). These processes allow us to give life to unique structures, perfectly adapted to the refined and premium world of the wine sector.

3D champagne bottle (2.5m)  
With its endemic frog

Bunch of grapes  
/ 395cm (3D)

Colours available

(Multiple colours)

Reference : 160 019

(This pattern also exists in 263 and 527cm)

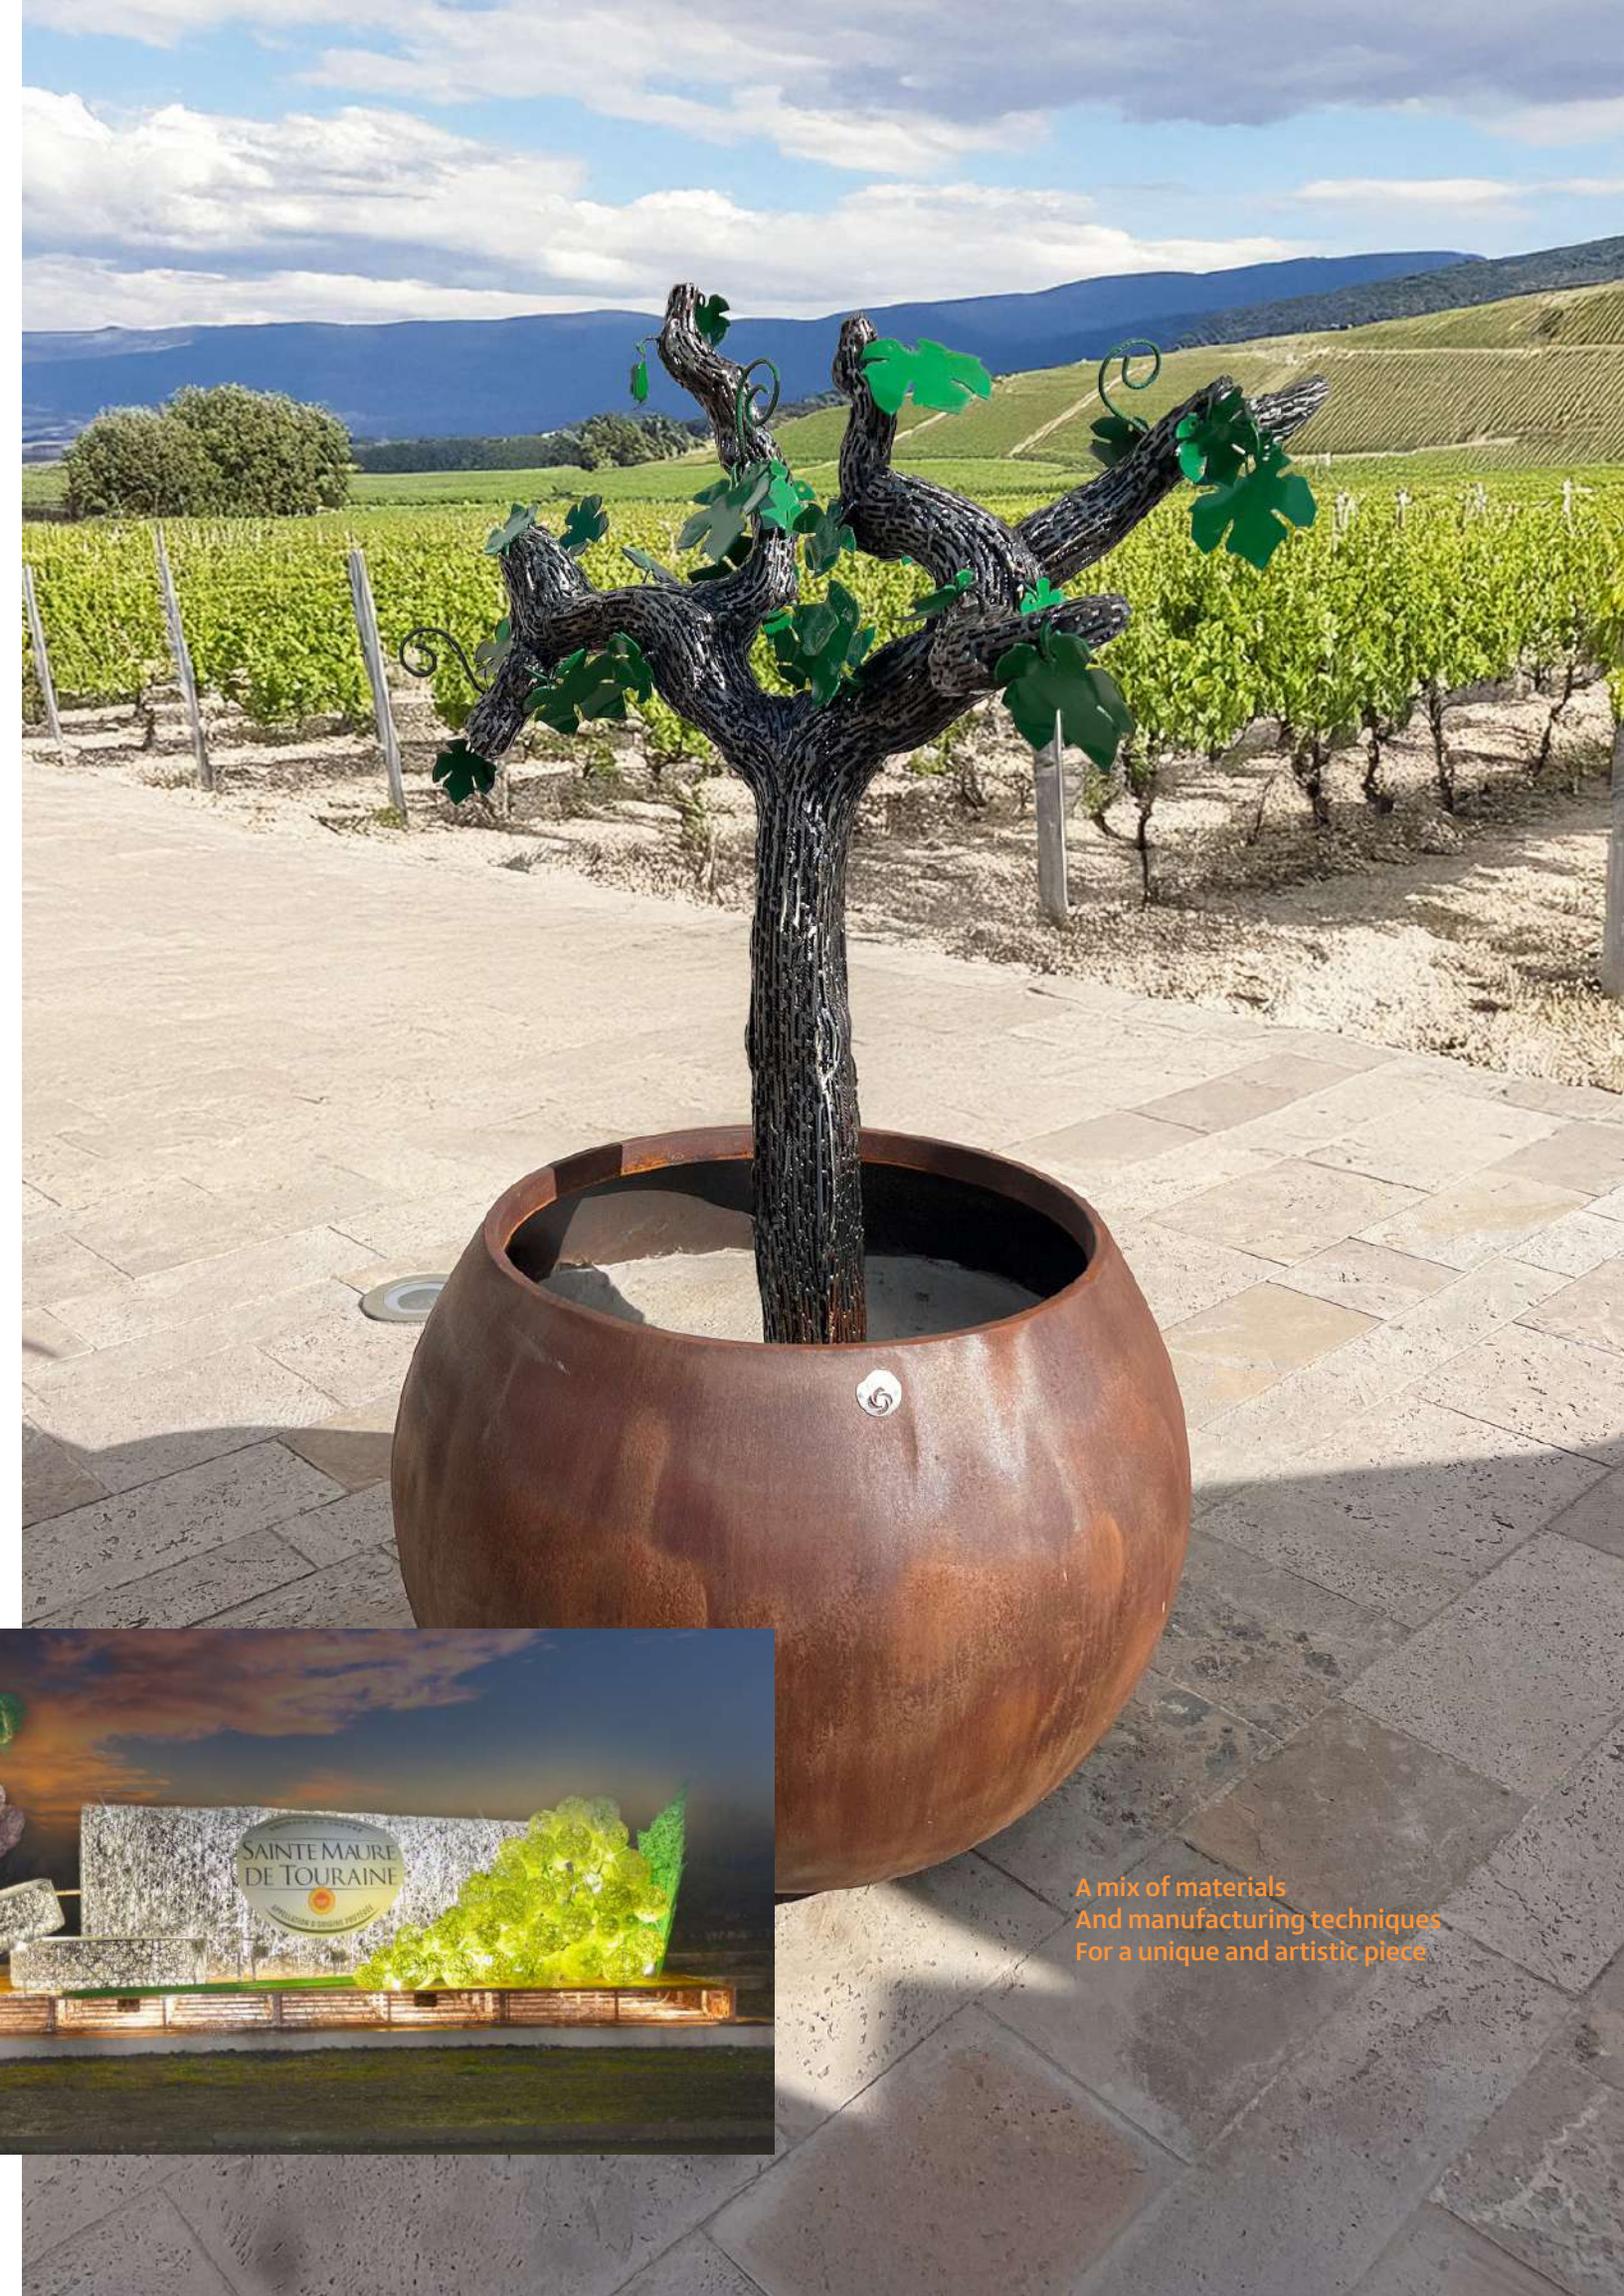

## Vineyard scene and cheese board

Day

A mix of materials  
And manufacturing techniques  
For a unique and artistic piece

• The Shades

# UMBRELLAS AND SHADED BENCHES

(Exclusive ADS DESIGN concept)

In the heart of summer, enjoy a moment of relaxation on a cool bench, savour the moment under the shade of our mineral fibre flower arches, or a large and romantic XXL umbrella.

## The shaded and decorative bench «Umbrella»

Inspired by the principle of an offset parasol, our umbrella is custom-designed according to the space you need to cover.

- Custom-tailored design
- Super durable and long-lasting
- Wide selection of colours
- The openwork appearance of our design limits wind resistance (unlike a traditional parasol)

### Umbrella leaf Stand

/ 250cm (3D)

Colours available

(Multiple colours)

Reference : 130 055

### Umbrella On base

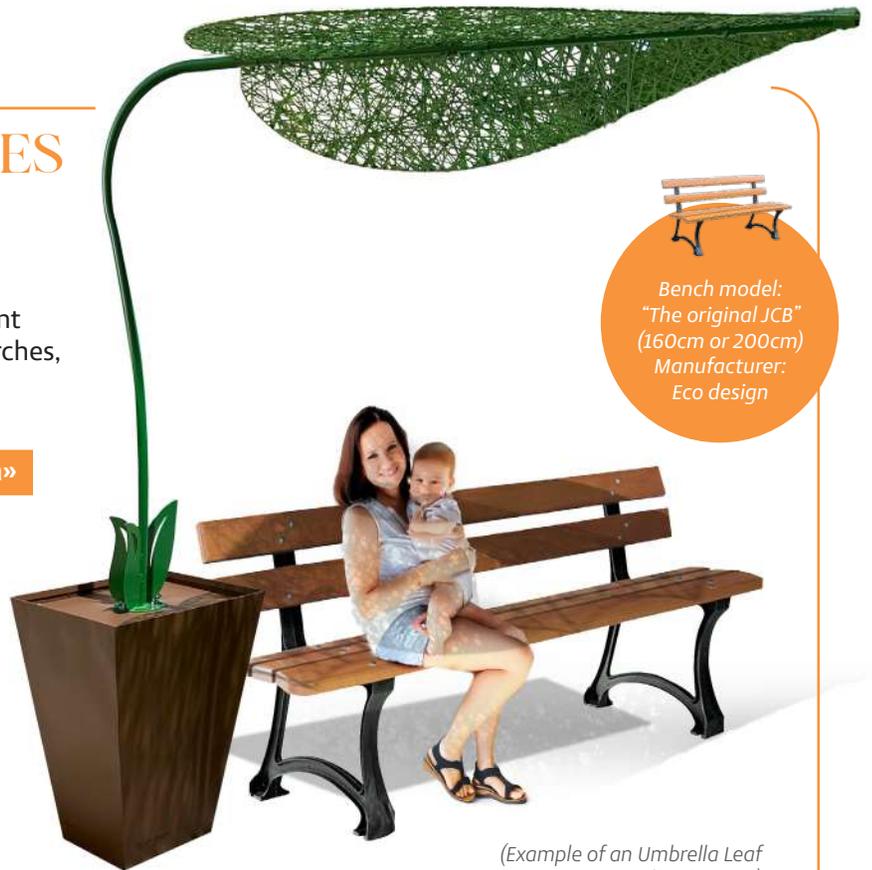

/ 250cm (3D)

Colours available

(Multiple colours)

Reference : 130 054

(Example of an Umbrella Leaf Standing in a pot)

Bench model:  
"The original JCB"  
(160cm or 200cm)  
Manufacturer:  
Eco design

## The shaded and decorative bench «Flower Arch»

Our "Flower Arch" bench is very popular at events, trade fairs and weddings.

- A custom-tailored design
- Super durable and long-lasting
- A wide selection of colours and flowers
- The openwork appearance of our design limits wind resistance (unlike a traditional parasol)

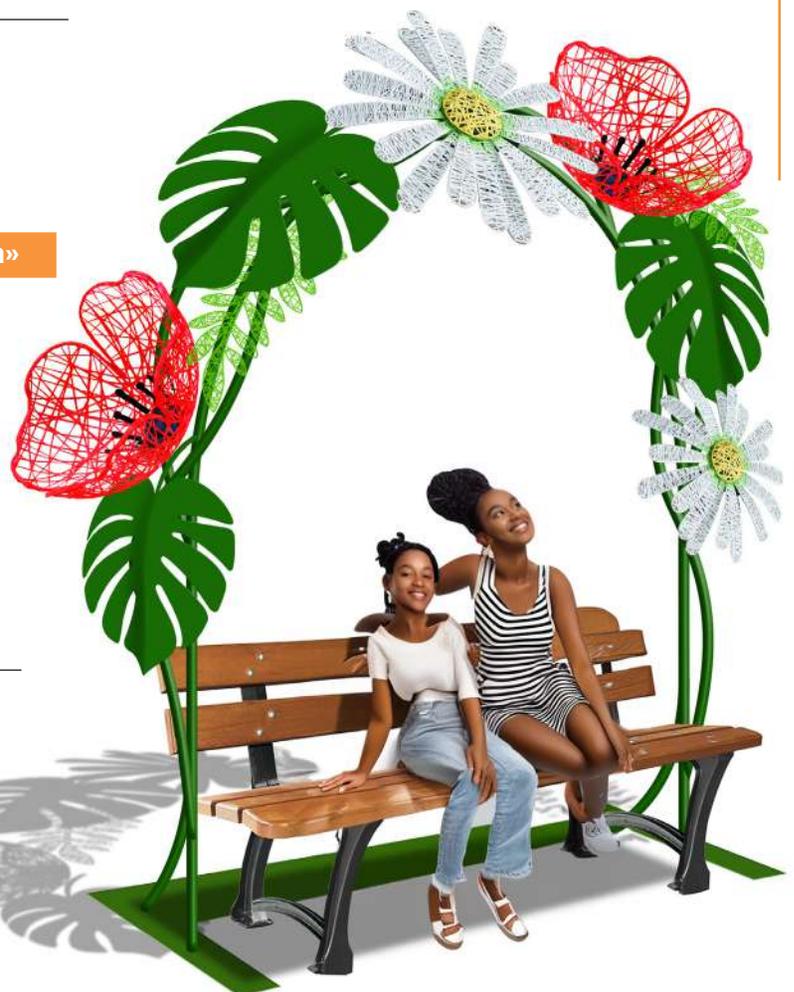

### Bench «Flower Arch» / 250cm (3D)

Colours available

(Multiple colours)

Reference : 130 056

Give new life to your public benches while providing shade and well-being to users with our decorative structure designs.

• 3D Sports Decorations

# Celebrate Sporting events

We offer decorative kits related to the sports activities in question. We also have a wide selection of 3D-made sports figures. These structures can be illuminated with solar or traditional spotlights.

**Motifs 2D** (Theme : Olympics)

(Tour de France)

**Bike / 250cm**

Colours available

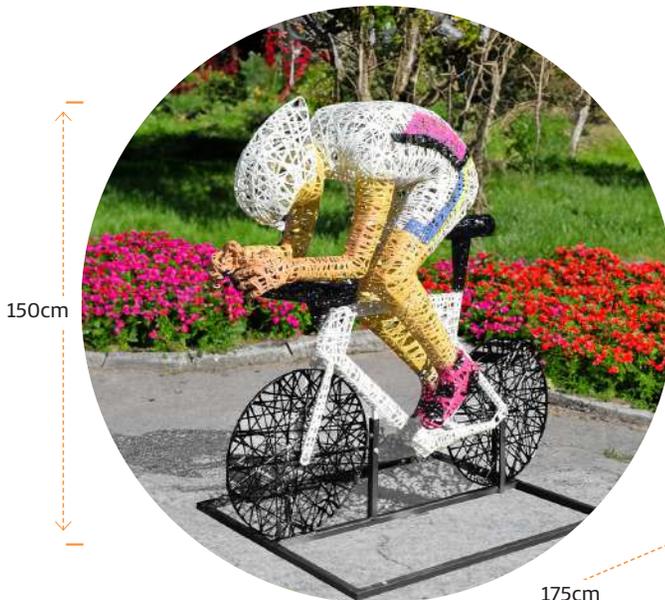

Reference : 130 041

(This pattern also exists in 150 and 300 cm, Can be installed on the ground or suspended)

**Sports 3D**

(Example : Cyclist)

**Cyclist / 165cm (3D)**

Colours available

Reference : 130 074

**Jersey/ 90cm**

Colours available

Reference : 130 036

(This pattern also exists in 150 and 250 cm, can be installed on the ground or suspended)

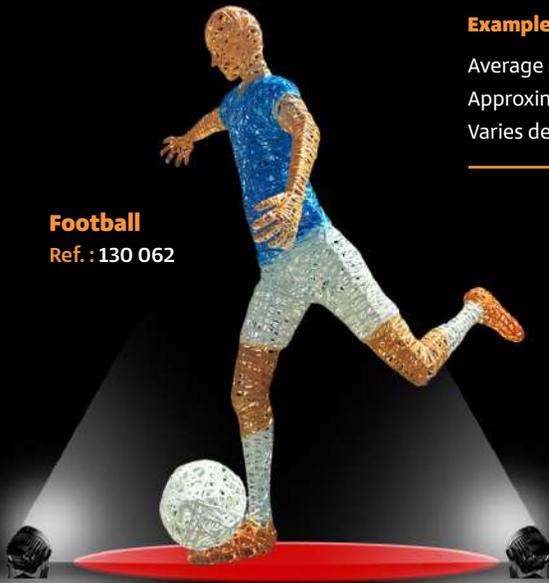

**Advantages ADS DESIGN :**

- A custom design for each discipline,
- A super-resistant and durable structure,
- A wide range of colours,
- The option to integrate a solar LED projector.

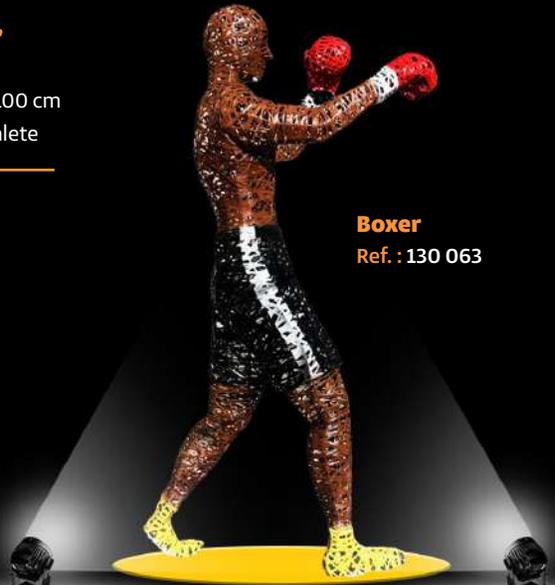

**Examples of athletes in 3D,**

Average dimensions  
Approximately 200 x 150 x 100 cm  
Varies depending on the athlete

**Football**  
Ref. : 130 062

**Boxer**  
Ref. : 130 063

**Athlete**  
Ref. : 130 068

**Break Dance**  
Ref. : 130 075

**Judo**  
Ref. : 130 067

# Giant 3D Letters

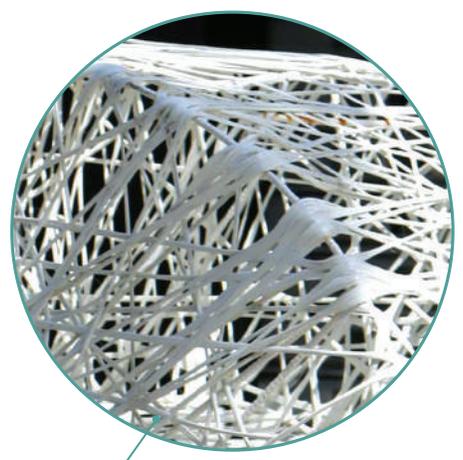

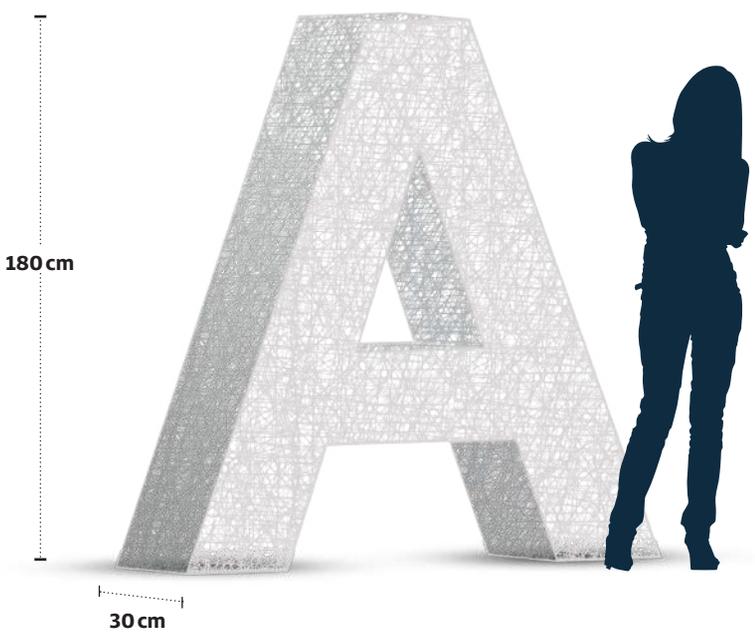

# Giant 3D Letters

Make your message shine. Our XXL illuminated lanterns are designed to make an impact at any event — national celebrations, sporting moments, awareness campaigns like Pink October, and more. A bold way to be seen and remembered.

## • Giant 3D Classic Letters

White weaving, the letters can then be coloured on request

Illuminated 3D letters With integrated projectors!

**Classic letter / 3D (180)**  
*(Our standard 3D Letters are also available in 50, 70, 100, 125 and 150cm height.)*

Our manufacturing system allows us to guarantee total durability. Our structures are both robust and lightweight. Our weaving technique ensures an aesthetic finish day and night (including the integration of LED projectors in the structure).

Reference : LETTERS-3D-1.80

## Accessorise your landscapes!

Personalize your landscapes with various decorative accessories or symbols specific to your city, make your choice according to the seasons!

Some pattern inspirations:

Thanks to our well-designed mounting brackets and simplified electrical connection systems, you can easily add and change themes with interchangeable patterns on your 3D landscapes.

Some examples :

Celebrate the arrival of spring

Participate in Pink October

Partner of sporting events

## RGB projector with DMX control

ADS Design Innovation!

Using DMX control, we can offer you the most complex animations in terms of colours, flashes, power, and movement. We can thus create and integrate different sequences specific to various events, all controllable as desired.
