Eastgate Shopping Centre

“The staff at LITE visited the scheme and surrounding area and proposed a solution that was both in keeping with requirements of the centre, reflected the brief and was within a realistic budget. Following instruction, the delivery of the service matched expectations, with installation being carried out around centre operations. Throughout the process staff were on hand to deal with any issues, with minor alterations being carried out without delay.

Following this successful introduction, LITE were also requested to install architectural lighting to our listed entrance as part of a joint venture with our local authority. These works were completed, with the main entrance now being shown off as one of the main architectural features of the city centre.”

Jason Robinson
Centre Manager

Kirkby Shopping Centre

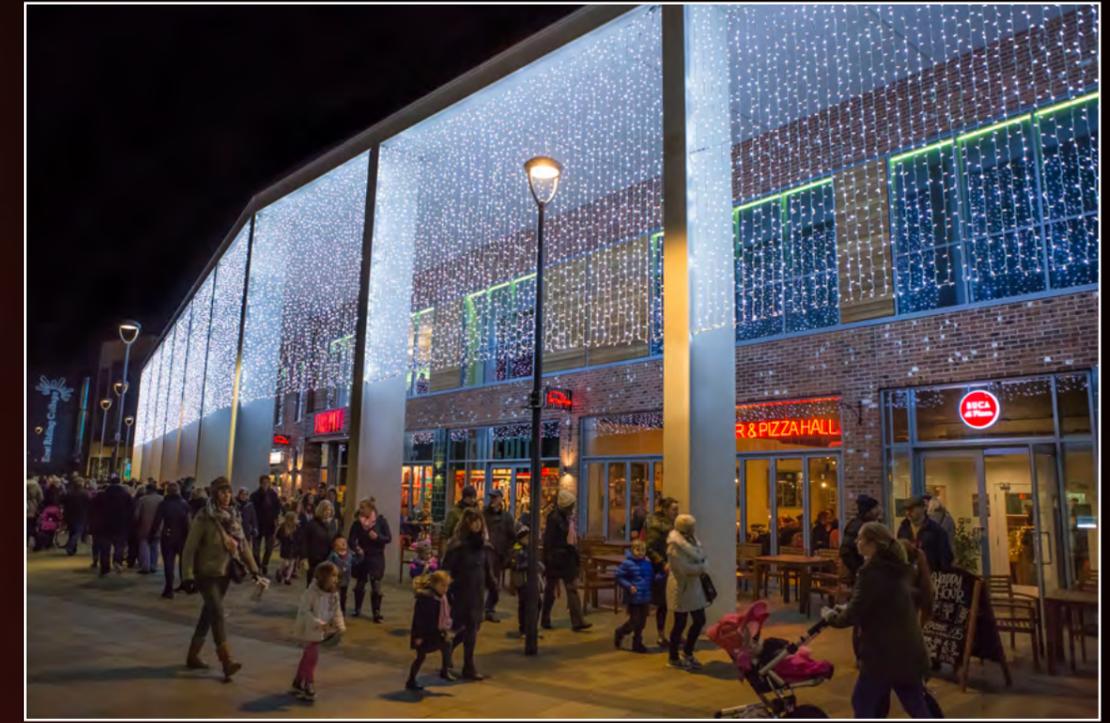

“St Modwen’s set out a vision to provide a festive lighting scheme for Kirkby Shopping Centre based on creating a WOW factor for our tenants and public. The scheme utilised the space to explore the sense of scale by providing 3D festive displays, and large ceilings of light to complement the public realm areas. LITE provided the relevant expertise and track record to articulate this vision and fabricate the features as part of the Centre’s festive celebrations. LITE’s communication throughout was excellent and the project was delivered on time and to a high standard despite having to work to quite a tight deadline. LITE provided visualisations to help with the approval process and provided assistance on site throughout the installation period. Since the new scheme was launched in 2016, the new festive lights have been well received by our tenants, and with over 6,000 people attending the switch on event. In addition the Christmas tree was voted the best in Merseyside by the readers of the Liverpool Echo. We are looking forward to working with LITE for the next 4 years, bringing a fantastic festive spirit to the Shopping Centre.”

Lighting and Illumination Technology Experience Limited

UK

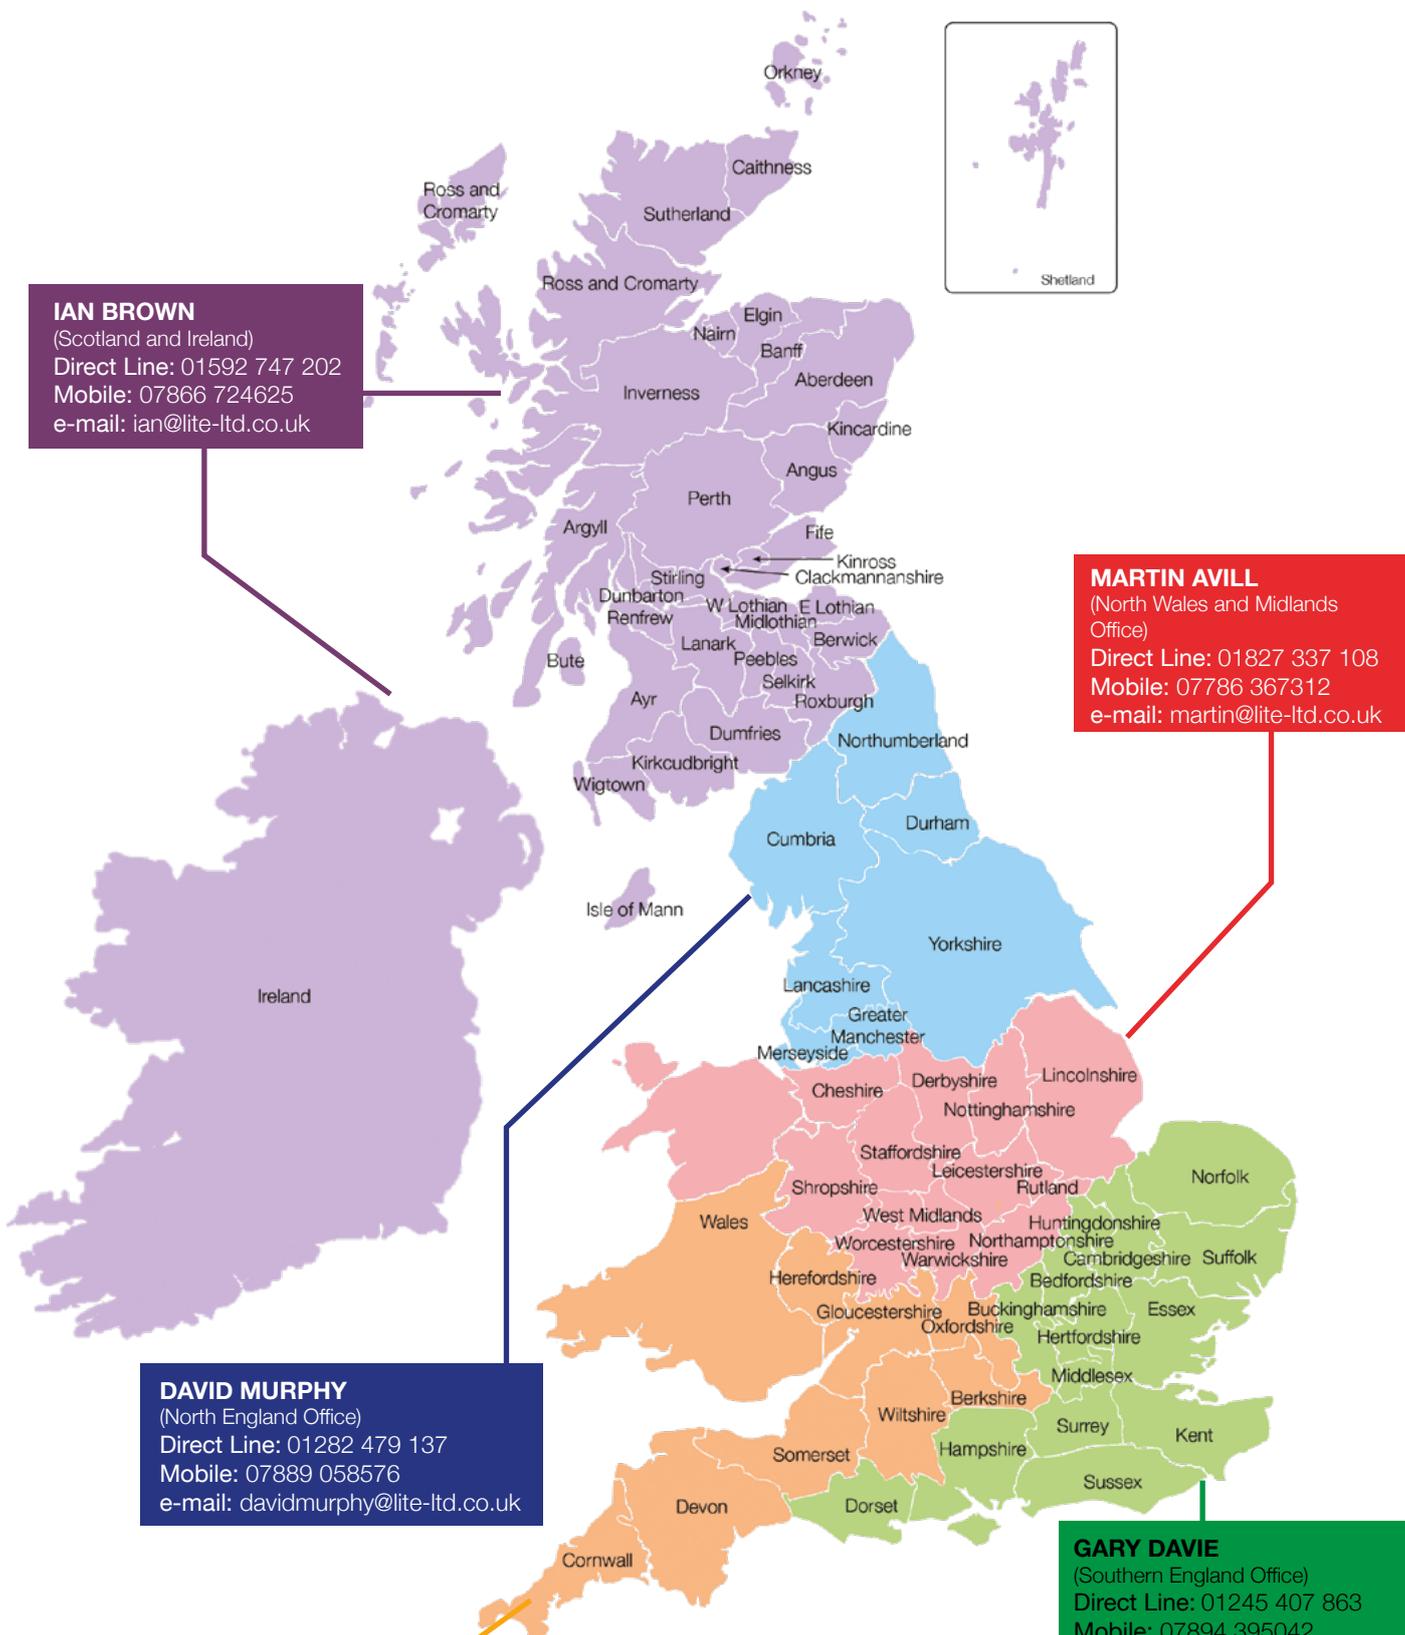

It has been a delight to work with LITE for the past three years. Their bespoke displays are always inventive, imaginative and of exceptional quality. They helped to bring a unique concept we had to life in the form of a Santa Jedi display to celebrate the release of the new Star Wars films at The Red Dragon Centre in Cardiff. The customer reaction, engagement and PR we achieved from this was nothing short of amazing. They and their team always arrived on time, erected displays during the night hours and left everything spotless in time for opening. I would have no hesitation in recommending LITE Ltd

Emma Constantinou
