Power At Your Fingertips

Cloud Control...

Lighting individual or many sites is now just a matter of a click.

- Twinkly Pro Brings the magic of Twinkly to professionals.
- Get ready to create stunning lighting decorations saving costs and time. You can also with the help of Twinkly Cloud group different installations with the ability to sync them and apply the same effect to all of them.

Cone Trees

- Twinkly Pro allows you to put twinkly magic on large scale installations. It truly shines on these artificial trees, which are easily placed as the centre point of all attractions.
- Our trees can be supplied with a box for elevation and even a star topper.
- Tree sizes vary from 4m to a staggering 10m tall!

Perspex

Add an instant WOW factor to your space.

- Twinkly Pro lights behind textured panels can create an exsisting effect at your event whether it be festival, wedding, exhibltion, any occasion!
- We create textures which enhance Twinkly Pro Lighting by diffusing the effects and adding ambience to immerse your audience.
- Choose from white flowers, green foliage or perspex panels. Soft diffused backlit panel from which you can tailor playlists of effects. these can be made in any size to suit your space.

2D Frames

- Brighten up a high street, walkway or any area with our Displays. They can be column or wall mounted.

- Twinkly Pro can be strung on our standard designs, bespoke for you, or even refurbished onto existing displays.
